

# RTIIC

## Rail & Tram Infrastructure Industry Committee

Presentation by Geoff Walker

Wednesday 19<sup>th</sup> September, 2007

RTIIC

# OBJECTIVES

The committee provides a forum for the oversight of:

- The training and development requirements across the whole of rail and tram infrastructure.
- The development and maintenance of industry competencies to ensure that they meet current and future industry needs.
- Facilitate industry specific training to ensure that industry competencies are maintained.

# OBJECTIVES

- Represent the industry as a whole on other infrastructure issues as the Committee may determine from time to time.
- Act as an advisory body to the Rail & Tram Industry Training Centre at Newport

# COMMITTEE MEMBERS

# TRAINING MODEL

## Training up to Certificate 6

Training

- Training Material
- Training Venue
- Trainers

Competency Assessment

- Assessment Material
- Workplace Assessors

PERSON

APPLICATION ON THE JOB

OUTCOME

Training demand

Supervision Guidelines  
(for Apprentices only)

Units of Competency

# PROJECTS UNDERTAKEN

- 10 Projects:
  - 8 Training
  - 2 Other

# PROJECTS - TRAINING

1. Updating of Competencies
2. Training and Assessment Material
3. Trainers and Assessors
4. Training School
5. Apprentice Guidelines
6. Industry Skills Gap Analysis
7. Graduate Engineer Program
8. Currency of Competencies

# PROJECTS - TRAINING

Representative on:

- EPIC Skills Council
- EPIC Board
- TDT National Reference Group
- National Steering Committee:  
Rail Industry Graduate

# Graduate Engineer Program

## Training

Certificate 3 & 4 Signalling (1 Yr)

Queensland University Course (2 yrs)

## Job Experience

	Basic	Advanced
Design	6	6
Construction	6	6
Maintenance	6	6
