

STORE 2009

Study Tour on Railway Engineering
Asian Metros

Barry Renaud and John Hoyle

Asian Metro Impressions –

An Engineer's and Journalist's View

In September 2009 the RTSA sponsored a Study Tour (STORE) of Asian Metro systems. The tour covered five major cities from Singapore to Shanghai over 10 days. A diverse group of engineers of all ages, experience and disciplines attended.

This presentation will provide an overview the encounters of the tour and perspective on what the Australian Rail Industry can gain from the experience and practices of

the many Asian Metro Operations.

Barry Renaud and John Hoyle will give the presentation

Barry has held a variety of roles within QR throughout Queensland and interstate since 1979. In July 2008 Barry

became the National Manager Business Development for QR Services growing the business activities in all Australian states.

John Hoyle is a Brisbane based journalist specialising in rail transport issues. He is the Australian editor of International

Railway Journal and National Affairs editor of Railway Digest magazine

RTSA:

for all who have an interest in railway technology and management
