***STORE '09 - Asian Study Tour and
Aluminothermic welding: Past, Present and Future***

RTSA invites you to a double presentation by:

Doug Hayhoe and Nicholas Hurley
(RTSA Chapter Committee)

RTSA organised the Asian Metro Study Tour of Railway Engineering (STORE 2009) in September 2009. The tour included the latest technological developments and practices of metro operations in Malaysia, Singapore, China and Hong Kong.

The presentation will include highlights from this very successful tour.

Paul Radmann
(Thermit Australia)

"Aluminothermic welding: Past, Present and Future."

A history from discovery in 1898 to the modern versions of the process and its challenges. This will be followed by how Thermit sees the process developing in the future given the new rail and welding technologies that are emerging.

Where and When:

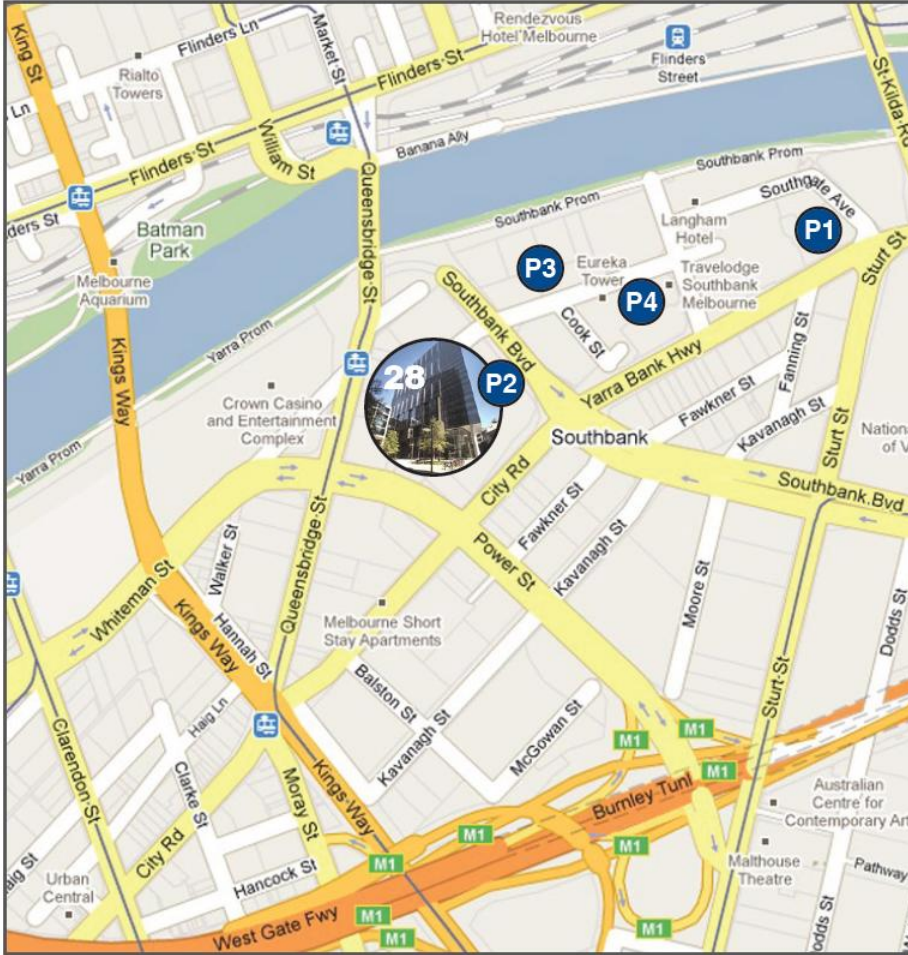

Parsons Brinckerhoff
Level 15, 28 Freshwater Place
Southbank *(see attached map)*
Wednesday 17th March 2010

6pm for finger food, 6:30pm start

RTSA gratefully acknowledges the support of PB for providing the venue, and PB together with Thermit for providing refreshments for the evening.

Members and non-members welcome
