

## The Railway Technical Society of Australasia

Invites you to

# STIMULATING RAILWAY SIMULATION

---

**Ian Cotton, David Bond**  
KiwiRail Network

### **Railway network simulation**

*KiwiRail Network are now regarded as one of the leading users of a sophisticated network modelling tool, which threw up some interesting insights in developing the new throat entry to Wellington Station.*

---

**Allan Cannell**  
KiwiRail Mechanical Services

### **The new P13 passenger bogie**

*Later this year Tranz Scenic will introduce a fleet of new passenger cars (which will be the subject of a later meeting). The new bogie which will carry these passenger cars has also been engineered in NZ as part of a unique design and development project. Physical testing has already simulated 30 years hard running - without turning a wheel.*

---

Hotel Intercontinental, Grey Street, Wellington

**Thursday 26 May 2011**

Presentations will begin at 5.30pm

*The evening will conclude with refreshments*
