(Image Source:SA-UAVs)

Through the 2017/18 South Australian State Budget, the South Australian Government announced a range of significant state infrastructure projects, including a number of key public transport initiatives. These public transport initiatives are being managed by the Department of Planning, Transport and Infrastructure (DPTI) who have partnered with McConnell Dowell, Mott Macdonald and Arup to deliver these works through the Public Transport Projects Alliance (PTPA).

Oaklands Crossing Grade Separation project

The Oaklands rail crossing is located 12.8km south of Adelaide on the Seaford train line at the intersection of Morphett and Diagonal Roads. The existing Oaklands Crossing imposes congestion and traffic delays on Morphett and Diagonal Roads due to the operation of boom gates for trains along the Seaford rail corridor. The boom gate operations restrict road traffic movements across the rail line for approximately 25% of the peak traffic periods. Traffic movements for the nearby Westfield Marion shopping centre, the SA Aquatic and Leisure Centre and GP Plus facilities further contribute to pressure on the road network around the level crossing (*Source: DPTI*).

Participants will hear firsthand from the project team. Some of the challenges and achievements in the project delivery to date.

Required PPE: All participants will need to bring their own ORANGE hi-visibility vest, safety boots, hard hat, safety glasses, gloves, and wear long sleeve shirt and long pants (no shorts) otherwise entry will be denied. Meet at the site offices; best access by train to Oaklands. There is limited parking on site. Numbers will be limited so register early!

VENUE:

Meet at Site Offices,
Dwyer Road and
Diagonal Way
Oaklands Park SA 5046

DATE:

Thursday 7th March 2019

TIME:

4pm for safety briefing,
concluding at 5pm

Cost:

EA and RTSA Member:
Free

Non-Member Rate: \$30.00

RSVP:

<https://www.engineersaustralia.org.au/event/2019/02/oaklands-railway-site-tour>

Maximum CPD Hours:

1 hour(s)
