Student and rail industry networking night

This event provides an opportunity for students to engage with professionals to learn more about the rail industry, as well as career pathways.

The Railway Technical Society of Australasia (RTSA) is holding a networking night for students to meet with representatives from the rail industry. With a large pipeline of projects, the Australian rail industry is in need of engineers to help deliver and maintain rail networks. This event will provide an opportunity to engage with professionals to learn more about the rail industry as well as the career pathways in rail.

The event will comprise of short sessions with various subject matter experts from the rail industry as well as introductions to graduate programs at our partnering organisations.

Our partnering organisations include Mott MacDonald, Transport for NSW and Alstom. Refreshments and drinks will also be provided.

About the RTSA

The Railway Technical Society of Australasia (RTSA) is a Technical Society of Engineering Australia and a Technical Group of Engineering New Zealand formed to further the interests of the railway industry at large and its individual participants.

The RTSA is a non-profit organization and was established in 1998 for the purpose of promoting the co-operation of academic, industrial, commercial and governmental organizations in relation to the practice and advancement of railway technology and management in Australasia.

The objectives of the RTSA are:

- to stimulate the active contribution and participation of its members in the development and dissemination of railway technology and management knowledge, so to support the business of the railway industry,
- to provide for the continuing professional development of its members, and
- to promote close working relationships amongst participants in the railway industry.
